Continuation of 5. does NOT place the application in condition for allowance because: Applicant stated that "Bergenlid disclosed the forced termination communication connection is permanent". In response to the Applicant, the communication connection, as taught by Bergenlid, is not permanent (col. 2/ln. 29-36). Applicant stated that the rejection of Bergenlid in view of Knight is improper. Bergenlid do not explicitly disclosed a temporary interupting bi-directional data tramission. However, Knight taught such method (abstract, col. 2/ln. 16-27). Therefore it would have been obvious to one of orinary skill in the art to provide such method as taught by Knight to the communication system of Bergenlid to effectively allocated communication channels resources .
